JOURNAL

OFFICE OF LEGISLATIVE COUNSEL

Monday - 25 March 1963

25X1

[redacted] hand-carried the completed form relating to employment benefits through Senate Preparedness Investigating Subcommittee to Mr. Robert A. Brenkworth, Finance Officer of the Senate. Rem one of the form relating to FEGLI insurance had not been completed so the box was checked in pen and initialed by me. Mr. Brenkworth also noted that normally where there is no breakdown in service, health insurance would be transferred to the Hill but since the Agency had an association plan which was not available, he had no choice but to allow that coverage to continue.

25X1

[redacted] Received from House Defense Appropriations Subcommittee for security review, Air Force testimony of Thursday, 28 February, pages 2493 through 2531, together with the first section of Part II galley proofs of DOD testimony before House Defense Subcommittee IVBX-Line through 98.

Also ascertained that 200 copies of Part I of Defense testimony (which contains the Ball letter) had been received back from the printers and probably will be distributed sometime tomorrow morning.

25X1

[redacted] advised that he will be dropping in to say hello to Representative Frank C. Osmers, Jr., of New Jersey, at his father's insistence. His father and Mr. Osmers are old friends. His present cover should create no problem in his estimation for such a meeting. Advised that Mr. Osmers is a member of an Agency Subcommittee and that as long as cover is adequate no problem would be anticipated in such a meeting.

25X1

[redacted] Received from Robert Neal, Senate Preparedness Subcommittee staff, a therm o copy of an original and translation of a letter purporting to be from the President of the Commission Invidiadora Sovietica to the Union of Communist Youth in Havana, Cuba. The Committee is interested in a reading as to the authenticity of the letter and if worthwhile would assist in development of the source. The source, however, was not named.
